

Executive Systems

The Presidential Choice

Designed with knowledge gained within rental divisions over the last 25 years, the Rise & Fall Motorised Robotic Stands offer:

- > Ability to adjust the height of the stands automatically using programming or WinPlus Conference software
- > Flexibility for all variations when used at award ceremonies, conferences and presentations
- > Stand position control data is transmitted via BNC 75 Ohm cable
- > Prompter video can be shared via an on-board video distribution amplifier with termination

Stand and Deliver software

- > Controls up to eight stands
- > Intuitive 'drag and drop' interface with graphics of connected stands
- > Database storage of stand heights with up to 500 speaker positions
- > Automatic stand position movement using WinPlus software
- > Construction of running orders using saved information from database
- > Package includes software, Coax-USB converter box and USB cable

There is also a non-motorised version available

“ For more than six years, and countless events, our Autoscript rise & fall system has always met our expectations. The equipment is well made and reliable, and the software is easy to use. I've worked with similar rise & fall systems, and Autoscript's is the best. ”
