

# Perfect Prompting

## In the palm of your hand

### RAT Wireless Scroll Control

The RAT (Receive And Transmit) allows total freedom for the presenter to move around a studio and control the speed of the prompted text.

**It features:**

- > A rocker pot for forwards and backwards direction, with a centre stop
- > Push buttons are provided for next and previous stories
- > A GPI interface for control of graphics or backgrounds
- > Interfaces with all the WinPlus software packages and Smart Combi Control Net applications
- > Unique one minute power save mode when idle
